

The Broncobots Bulletin.

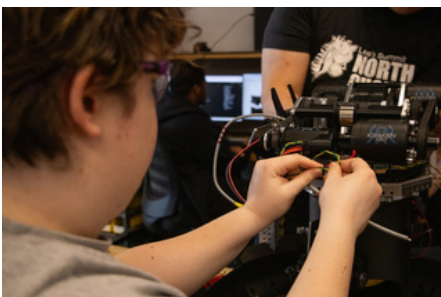

Open House

3/8/26 - On Sunday, the Broncobots hosted our annual Open House, showing off all our students' hard work this season as well as our 2026 robot. It was a great day full of robot conversation and collaboration as team members traveled to see the designs of the other Lee's Summit teams. With a week left on the clock till Heartland, it's nonstop action before the big day!

This Week @ The Shop

This week, Broncobots were preparing every aspect of our robot to be ready for the grand reveal. With most parts manufactured, assembly of all robot components and handing it off to programming was the main goal.

Broncobots Spotlight

Reuben L.

Years on team: 1

Role on team: Manufacturing, Field Build, & Strategy

Fav. part of the team: The community and camaraderie
